

# Bug report

**Samsung Galaxy Z Flip 4 – Android 13 – After creation of the drawing note, the note is invisible in main search tab**

Action performed	<ol style="list-style-type: none"><li>1. Navigate to Keep notes app</li><li>2. Tap plus button</li><li>3. Tap "Drawing"</li><li>4. Draw a note</li><li>5. Tap arrow icon</li></ol>
Expected result	note is created and visible in general notes tab
Actual result	note is created and drawing is invisible, doesn't load
Severity	medium
Bug type	functional
Proof of concept (PoC)	 A screenshot of the Google Keep app interface. The top status bar shows the time as 15:06, LTE signal, and 82% battery. The app header includes a menu icon, a 'Search Keep' bar, and icons for list, grid, and share views. The main content area displays a grid of notes. A red rectangle highlights a note that is mostly black, indicating a failed drawing. To its right is a note with a photo of a baby and the text 'When they give you birth without asking and then expect you to be a doctor or engineer'. Below the red rectangle is a note with the text 'hello' and a play button icon. At the bottom right is a note with the text 'Fhjfgjb' and a large green plus button for creating new notes.
